

Stella Wilson

Hi ,I am Stella. I manage Westminster Children's University. I get to work with our amazing team everyday to make sure there are always loads of amazing opportunities for you all to take part in.

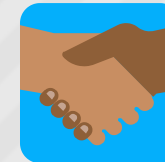

**I am especially interested in how we look after each other and promoting wellbeing. I have been lucky to meet and join forces with lots of great providers and stakeholders to make looking after yourselves and each other much easier.
I am a real animal lover so am so excited about our mini farm annd bug club!**

You may have also spent time with me during our holiday and wellbeing clubs, which are always amazing fun! You will have seen our online content, which I update daily and have been part of our wellbeing and extra-curricular projects with me in school. I am looking forward to the larger projects we have coming your way and getting out to explore London together this year.

Any Questions?
