

Online teaching solution for schools

[Microsoft Teams FOR EDUCATION](#) is a digital hub that brings conversations, meetings, files, and apps together in one place. It is built on office 365. Schools' benefit from integration with their familiar office apps and services. It delivers enterprise-grade security and compliance that is extensible and customizable to fit the needs of every school.

Key features:

- Create separate containers like classes, staff room, book club etc for easier management and navigation
- Schedule a meeting with your team or class, Join / participate in various meetings (live and private). It's fully secure
- Create learning activities (in built Assignments tab) for students with integrated MS office applications
- Leave feedback for students, grade and track student progress using inbuilt GRADE tab
- Use one note class and staff notebook to take notes and collaborate
- Create classroom announcements and posts. Edit your post to get student attention, control who replies on post and post across multiple channels
- Use video and audio calling options and easy search for content stored within
- Free support from Microsoft to help institutions drive engaging online orientations and help staff and students make the most of their tech for online learning
- Reflect Messaging Option-- To ask students how they're feeling about a particular issue or just in general. You can make results anonymous
- Nothing to download, nothing to buy!
